

# WELCOME MAT

The importance of using light to welcome and greet the driver has grown dramatically. At JVIS, we see this expanding trend and have some of the best high-resolution light projection technologies available. Our welcoming mat technology can be placed anywhere on the vehicle where there is a need for light projection. Logos, special designs and patterns are all possible with our innovative compact system. The first thing you notice when you see our welcome mat technology is how bright the image is—and the punch of high-resolution image it projects. If your design needs require unique placement of light projection or your looking for some new creative approaches to welcome your customers to their vehicles talk to JVIS, we have solutions to make your dreams a reality. If you require more information, please **contact us** on our website or by using the information listed to the right.
