

ELECTRO MECHANICAL SEAT SWITCHES

Your comfort is only a fingertip away at JVIS. With a world class design staff we can design and manufacture a custom seat control switch to your exacting needs. JVIS seat switch capabilities reach across all seat functions for premium comfort. We utilize the latest technology in mechanical as well as our “smart seat” microprocessor technology, enabling all seat functions from a single switch assembly. Thus, allowing more options to meet your electrical system requirements. As a system integrator we can adjust the haptics and visual design of the switch-knobs, and integrate our state of the art molding and manufacturing capabilities globally. If you require more information, please **contact us** on our website or by using the information listed to the right.
